DREAM

BEDROOM FURNITURE

DREAM

BEDROOM FURNITURE

Furnish holistically, feel good all round.

A home is well balanced when all rooms work together harmoniously. What started with kitchen, bathroom and living is now continuing: The bedroom is now also becoming part of the well thought out living concept. This creates a living experience that impresses from one room to the next – with individual planning, perfect coordination and consistency in every detail.

In addition to a large selection of wardrobes, you also have a range of chests of drawers, bedside tables and matching accessories to choose from – for a bedroom with perfect furnishings all round.

BEDROOM FURNITURE

BASIC SYSTEM

Your step-by-step instructions for the perfect bedroom. The new Dream range impresses with a clear and well-arranged basic structure – wardrobes, occasional furniture and accessories can be easily and individually arranged to create a harmonious overall concept.

1 CARCASE SELECTION

Basic and extension elements in two heights and four widths are available as basis for your wardrobe. The basic elements can be extended with any number of extension elements. You can use this to design your wardrobe in continuous style.

1a Select the height

1b Select the width of the basic element

1c Select the extension elements in the desired width

Combinatorics of the basic and extension elements

2 SELECTION OF INTERIOR FITTINGS

Each carcase element has two shelves and one wardrobe rail as standard. Optionally, further shelves, wardrobe rails, two internal drawers or shelf inserts can be added.

Standard fittings

Optional fittings

Wardrobe rail

Set of 2 shelves

Set of 2 internal drawers *

Shelf insert with wardrobe rail and 3 shelves

*The set always consists of two internal drawers with push-to-open technology for opening. The set can be positioned on the plinth base or wall-mounted (as shown). In addition, multiple sets can be stacked on top of one another.

3 SELECTION OF DOORS

The carcase combinations can be designed open, with hinged or sliding doors. Four handle versions in three lengths or a handleless push-to-open solution are available for the hinged doors. Sliding doors are available either with a passe-partout frame directly on the carcase or planned as room element from wall to wall. Optionally, the sliding doors can be visually separated in the middle with panel-dividing rail (further ordering information from p. 12).

3a Hinged doors

3b Sliding doors on the carcase with passe-partout frame

optionally with panel-dividing rail

3c Sliding doors as room element, flush-to-wall-mounted

optionally with panel-dividing rail

4 ADDITION OF OCCASIONAL FURNITURE AND ACCESSORIES

Matching chests of drawers, bedside tables and accessories are available for our wardrobes for a coordinated bedroom design. The chests of drawers come in two heights and five widths. The bedside tables are available in four heights and two widths. Mirrors and plug-in wall shelves add an individual touch.

WARDROBES

CUSTOMISED DESIGN

Above all, a wardrobe should have the following: sufficient storage space. Individual interior partitions are crucial here, whether in the form of wardrobe rails, shelves or drawers. The door design also plays a part: classic hinged doors or space-saving sliding doors. What is important is that the wardrobe makes the most of the available space. The basis is a flexible carcass system in continuous style, enabling individual fitting options and optimum use of space. Wardrobes can be planned individually and in just a few simple steps with their current design options.

OCCASIONAL FURNITURE

CHESTS OF DRAWERS, BEDSIDE TABLES AND PLUG-IN WALL SHELVES

For a complete bedroom design, our occasional furniture rounds off the overall picture harmoniously. Our chests of drawers, bedside tables and plug-in wall shelves create additional storage space and turn your bedroom into a well balanced unit. The large selection of décors enables individual coordination with the respective wardrobe configuration. Eleven carcass décors, two carcass interior décors, 15 front décors and twelve top shelves are available. The selection of four handle versions round off the visual appearance and place subtle accents. Please indicate the desired options when placing your order.

DESIGN SUGGESTIONS

WARDROBES

The following pages will present you with well thought out design suggestions, enabling simple and at the same time inspiring wardrobe design. They show how our wardrobes can be combined harmoniously and functionally. Solutions that can be directly adopted and realised. These suggestions can also be experienced live in our current exhibition.

WARDROBES

HINGED DOORS

HINGED DOORS

Our wardrobes can be equipped with hinged doors or sliding doors as required. Hinged doors are characterised by simple shapes and many handle options. You can choose from four handle versions in three lengths or opt for a handleless push-to-open solution.

You can choose between doors with a width of 400 mm or 500 mm.

ORDERING INFORMATION HINGED DOORS

- From a carcase width of 800 mm and 1,000 mm, a design with two hinged doors is required.
- No handles are included in the scope of delivery. One handle or one PTO must be ordered and invoiced per hinged door. The desired version can be freely selected. Please specify the handle number and respective length. A template is supplied for mounting, which can be used for all handle sizes.
- For the mirrored doors, one offset handle as well as adapter for mounting the railing handle on the door are automatically included in the delivery for opening.

WARDROBES

SLIDING DOORS

SLIDING DOORS

Another option are sliding doors, these can be planned on the carcass with a passe-partout frame or as room element from wall to wall and floor to ceiling. The top track is either screwed inside the passe-partout frame or in the ceiling. Sliding doors are space-saving, integrate seamlessly and are suitable for both built-in wardrobes as well as walk-in wardrobes. Door widths are between 500 and 1200 mm, heights between 700 and 2600 mm, for continuous doors depending on the décor, up to max. 2000 mm. Split doors are available at a surcharge with panel-dividing rail (GTS120, 1406) or a centre panel with a different décor (MP-GTDW, 1407). The minimum dimension per door is 500 × 700 mm.

THE TRACK PROFILE

- Track length: max. 5000 mm
- Colours: 014 Stainless steel appearance, 010 Black

double-track (installation depth: 79 mm)

three-track (installation depth: 117 mm)

Scope of delivery per track set:

- Top and bottom tracks coated on both sides
- Top track position holder
- Sealing brush
- Bottom track topper in black or grey

* (The top track is 40 mm high and screwed, the bottom track is 6 mm high and self-adhesive.)

PLANNING AND CALCULATION INFORMATION

CALCULATION

- Door width = (total width + overlaps – brushes – wall connections) ÷ doors
- Door height = total height – 45 mm
- Total width = (doors × door width) – overlaps + brushes + wall connections

CALCULATION INFORMATION

- Take into account that all wardrobes and built-in components behind the doors should remain accessible.
- The door arrangement must ensure problem-free accessibility of the entire interior system.
- Overlaps increase the door width by + 26 mm.
- Sealing brushes decrease the available opening width by -3 mm.
- Wall connections decrease the available opening width by -25 mm.

SLIDING DOOR BRAKES

- Doors > 750 mm: min. of 1 break recommended per door, 2 recommend as needed
- Doors < 750 mm: max. 1 break, tilt protection required
- The number of brakes per door must be specified with the order.
- Without specification of the closing direction: Mounting in accordance with catalogue specification

DESIGN OF SLIDING DOORS

SLIDING DOORS ON THE CARCASE WITH PASSE-PARTOUT FRAME

Deep passe-partout frames 25 mm

The passe-partout frame is used on the side as an end piece and stop and at the top for attaching the sliding door track if the room situation requires this.

SLIDING DOORS AS ROOM ELEMENT, FLUSH-TO-WALL-MOUNTED

Deep top track 40 mm

If the wardrobe is to reach flush from one wall to the opposite wall, sliding door sets for mounting in front of wall are ideal. The wardrobe is thus harmoniously integrated into the room architecture and becomes an inherent part of the room.

OPTIONAL PANEL-DIVIDING RAIL

- A surcharge per door is invoiced for sliding doors with a panel-dividing rail. In this case, the doors are visually divided into thirds in a symmetrical manner.
- If continuous and divided doors are combined in a set, please indicate which door is to be divided when placing your order.
- At a surcharge the centre panel can be delivered in a different décor.
- Please specify the different décor for each door.

ORDERING INFORMATION SLIDING DOORS

a PLANNING

- Our sliding door system meets flexible wardrobe and room planning options.
- To keep planning of the doors simple and flexible, every order is based on a set. This includes set number, track profile colour, front décor as well as dimensions of the entire wardrobe or room planning.

b FITTINGS

- All sets consist of a track side and sliding doors incl. top track position holders, sealing brush and bottom track stopper. This covers the relevant accessories even for complex room solutions.

c ORDER

- When placing your order, please indicate the total width and height of the sliding doors system in addition to the set number. The tracks are supplied precisely with the specified width dimension without a size allowance.

d DELIVERY

- The sliding door range is part of the furniture gross charging group. It can be combined with all furniture components from the standard range and invoiced. The delivery is made together with the overall consignment within the standard delivery time.

SITUATION-SPECIFIC ACCESSORIES

Accessories which depend on the specific installation situation must be ordered in addition:

- Sliding door brakes, invoiced per item.
- Tilt protection (is automatically invoiced for sliding doors under 750 mm with a sliding door brake)
- Wall connection, invoiced per started 100 mm.
- Cover caps for top and bottom tracks incl. top track stopper
- Ceiling track end caps and ceiling track centre support

SLIDING DOOR SETS *

As a rule, all sets consist of the following components:

1. Track set, consisting of bottom and top tracks and top track supports if required:
The calculation is made per started 100 mm and the number of top track supports if required
Please state the profile colour when ordering: 014 Stainless steel appearance or 010 Black.
2. Sliding door(s) incl. top track position holder, sealing brush and bottom track stopper:
The price of a sliding door is calculated from a fixed base price per sliding door GGT (1404)
plus a price per m² GT120 (1401).
3. For planning with a passe-partout frame on the carcase, the passe-partout frame (PR25)
must be ordered in addition.

Surcharges, sliding door brakes, tilt protection, passe-partout frame, cover caps for bottom and tracks are not included in the set, but must be ordered in addition based on the installation situation.

Set 2: GSSET-002 (1442)

Double-track sliding doors system with 2 doors

consisting of:

2 x GGT	Base price for sliding doors
2 x GT120	2 sliding doors incl. top track position holder, sealing brush and bottom track stopper
1 x GSSET-2L	double-track track set

For door widths from 500 to 1200 mm.

We recommend 2 sliding door brakes for doors upwards of 750 mm in width.

Set 3: GSSET-003 (1443)

Double-track sliding doors system with 3 doors

consisting of:

3 x GGT	Base price for sliding doors
3 x GT120	3 sliding doors incl. top track position holder, sealing brush and bottom track stopper
1 x GSSET-2L	double-track track set

For door widths from 500 to 1200 mm.

We recommend min. 1 sliding door brake per door for doors upwards of 750 mm in width.

Set 4: GSSET-004 (1444)

Double-track sliding doors system with 4 doors

consisting of:

4 x GGT	Base price for sliding doors
4 x GT120	4 sliding doors incl. top track position holder, sealing brush and bottom track stopper
1 x GSSET-2L	double-track track set

For door widths from 500 to 1200 mm.

We recommend min. 1 sliding door brake per door for doors upwards of 750 mm in width.

Set 5: GSSET-005 (1445)

Double-track sliding doors system with 4 doors

consisting of:

4 x GGT	Base price for sliding doors
4 x GT120	4 sliding doors incl. top track position holder, sealing brush and bottom track stopper
1 x GSSET-2L	double-track track set

For door widths from 500 to 1200 mm.

We recommend min. 1 sliding door brake per door for doors upwards of 750 mm in width.

Set 6: GSSET-006 (1446)

Triple-track sliding doors system with 3 doors

consisting of:

3 x GGT	Base price for sliding doors
3 x GT120	3 sliding doors incl. top track position holder, sealing brush and bottom track stopper
1 x GSSET-3L	triple-track track set

For door widths from 500 to 1200 mm.

We recommend min. 1 sliding door brake per door for doors upwards of 750 mm in width.

CONSISTENT LIVING CONCEPT

We develop coordinated furnishing solutions for the entire home. Kitchen, bathroom, living and now also the bedroom can be designed with the same style and combined harmoniously. In addition to this, we provide solutions for utility rooms, cloakrooms and home office areas, which seamlessly integrate into the overall concept. Our approach: See rooms as a whole and design them so that the interior furnishings result in a coordinated room concept.

KITCHEN

With decades of experience and extensive know-how in the kitchen segment, we offer solutions that meet the highest demands on planning, design and quality. Our kitchens are characterised by versatile and individual design options – from tailored concepts and a large selection of surface and décors up to flexible planning options. A precise finish, durable materials and a high degree of comfort and functionality ensure that our kitchens not only impress visually, but also reliably endure daily use.

BATHROOM

We also apply this coordinated design to the bathroom. High-quality wash basins, matching mirrors and storage space solutions are combined with selected surfaces and décors and finished precisely. This results in a balanced overall picture, combining comfort and functionality. For well thought out, precise and uncomplicated solutions.

BEDROOM

Following kitchen, bathroom and living, the bedroom can now also be integrated into the coordinated furnishing concept. Our wardrobe systems open up plannable solutions, adapted precisely to the available space and requirement. Whether it is classic hinged doors or modern sliding doors. A coordinated look is created with matching chests of drawers and bedside tables, continuing the style of the entire home. This makes the bedroom part of a harmonised overall concept providing maximum well-being.

LIVING

Living spaces subsist on ambience. Our furniture for this area combines timeless design with homely touches. Whether this is generous tables with a lot of space for social get-togethers, comfortable chairs or open shelves. The result are rooms that equally support every day use and special moments. Suitable cloakroom solutions and home office furniture pick up the style and seamlessly continue this into the defined living spaces.

UTILITY ROOM

Organising made easy: From storage to work areas, the utility room is optimally utilised with clever planning. Supplies, cleaning utensils or washing agents can be stored here in a structured way. Our well thought out organisation aids and combinable modules create additional space, simplify processes and flexibly adapt to your requirements. Functional details and a clear design ensure that every centimetre is optimally used.
